Customer Journey Map

Author	Nandini Bade
Program	SkillWallet, ServiceNow Global Certification
Platform	ServiceNow (Service Catalog, Flow Designer, Business Rules)
Document	Phase 2: Requirement Analysis - Customer Journey Map

1. Scenario Overview

Scenario: Browsing the Service Catalog, filling out vehicle requirements, undergoing manager approval, tracking task fulfillment by the Transport Team, receiving email confirmation, and completing the vehicle rental.

2. End-to-End Journey Map Table

Stage	User Action	Touchpoint	Goals & Motivations	Pains / Negative Moments	ServiceNow Solution Opportunity
Entice	Employee needs travel for client meeting	Service Portal / Intranet banner	Find easy way to request transport	Unsure where to find manual paper slips	Provide visible 'Car Rental Request' catalog item
Enter	Accesses Service Catalog > Transportation	ServiceNow Portal UI	Locate form quickly	Confusing catalog categories	Categorize item cleanly under Transportation Services
Engage	Selects Car Type (Mini, SUV, Sedan), Dates, Locations	RITM Form Variables	Submit accurate trip request	Form validation errors or past date submissions	Add Catalog Client Scripts for mandatory & validation checks

Exit	Manager approves RITM; Transport Team gets task	Flow Designer & sc_task	Get approval & driver assigned	Waiting blindly without status updates	Automate approval notification & real-time RITM state updates
Extend	Vehicle dispatched; trip completed	Email log & Incident ticket (if car unavailable)	Successful trip execution	Car unavailable or delay in dispatch	Trigger Business Rule to raise Incident ticket immediately if car unavailable
